HOW TO CONNECT WITH SSL VPN AND ACCESS LIBRARY E-RESOURCES ON MAC

You must set up SSL VPN on your computers in order to access the Library's e-resources. The steps shown below walk you through setting up the VPN. To configure the VPN, according to the step-by-step instructions.

- 1. Access the URL <u>https://203.115.107.76:4443</u>
- 2. The screen will open with a security prompt with and option "Advanced" at the bottom.

	:4444	Q &
	Your connection is not private	
	Attackers might be trying to steal your information from 203.115.107.67 (for example,	
	passwords, messages, or credit cards). Learn more	
	NET::ERR_CERT_AUTHORITY_INVALID	
	O To get Chrome's highest level of security, turn on enhanced protection	
	Hide advanced Back to safety	
	This server could not prove that it is 203.115.107.67; its security certificate is not	
	trusted by your computer's operating system. This may be caused by a misconfiguration or an attacker intercepting your connection.	
	Proceed to 203.115.107.67 (unsafe)
